

We about us ...

The Catholic Welfare Centres (Katholische Sozialstation) in Stuttgart are one of the most ample and capacious offerors of ambulant nursing. They were founded in 1975. Under the symbol of the wheeled helping hand exists an area-wide network of services, which offer a professionally qualified nursing. In the centre stands the human being and its needs.

Christian charity and nursing of the elderly and the needy belong to the main duties and responsibilities of the Church. All times nursing has been intimately connected with the Church.

Our nursing service is accredited to all health and nursing insurance funds. We are regularly controlling the quality of our nursing and are audited by the Medical Service of the health insurance funds.

You are entitled to use all our benefits regardless how old you are or what religion or nationality you might belong to.
