Service for your home and pet

If you are a client of the Welfare Centre and we are already taking care of you, we can also help you with some hand grips you cannot do yourself and that are not included in the catalogue of benefits of the health insurance funds.

We are emptying your letter box, watering your plants, filling in a form, carrying away your refuse and of course looking after your pet animal.

Service for your security

You are not feeling well sometimes and you would feel much safer, if someone would see after you or just call you every now and then?

We are coming to you as often as you want. And if a simple phone call would suffice, we would like to do that.

Custody of drugs and medication

We are paying attention that you are adequately supplied with the drugs you need. We also take care of the prescription.

If your physician prescribes you a home nursing, you don't have to think about when exactly the prescription is ending. Together with your physician we mind that you get your benefits as long as you need them. And we also secure the assent of your health insurance.

Advisory opinions by the Medical Service

If you have filed an application for benefits of the nursing care insurance, the Medical Service will come to you to furnish an opinion about your need for nursing care.

We know what is important for such an opinion, and we can help you to be categorised fairly. And if you let yourself be nursed by us afterwards for one year, we guarantee the refund of costs for this assistance.

“Your time’s our time”

As a client of the Welfare Centre you can always be sure that we try to fulfill your wishes concerning the time of your nursing. And if you have got some extra needs from time to time or simply want us to wait for you, then this special service just fits the bill.

Cash management

Are you already a client of the Welfare Centre and we do some shopping for you? And would you like to avoid the inconvenient cash reckoning? No problem. You only have to place an amount of money at our disposal each month. Then we can do all errands you need and you receive a detailed monthly settlement in writing.

Service for your well-being

We help you with things that are important for your well-being, for example on hot days, when it is of utmost importance that you drink enough water.

What else can we do for you?
